Work and Experience

Frontend Web Developer
Tech Studio Academy, Lagos / January 2022 – till date

- Deliver engaging user experience through optimization of images, code, and cross-browser compatibility, increasing Time on Page by +60 seconds for +50 websites
- Expand features, refine code, and improve processes, producing smoother operations and enhancing user engagement.
- Designed dynamic and browser compatible pages using HTML5, CSS3, jQuery, and JavaScript.
- Built single page applications (SPA), responsive web design, UI using HTML5 grid layouts, CSS3 media queries.
- Designing frontend within object-oriented Javascript frameworks like React.js.

FREELANCE

- Handling all verbal and written communications between hosting companies, clients, and vendors.
- Meeting with the prospective clients to review website, and gather the client's specifications for new or existing websites.
- Collaborating with the team to provide technically functional and user-friendly solutions for clients.
- Implement UX focused, fluid responsive websites and build out web presences.
- Researched and evaluated alternative technical solutions and recommend the most efficient and cost-effective.
